Flexible Pricing Models to suit all business sizes

Hefty upfront license fees are a significant barrier for Lenders when it comes to adopting cutting-edge technology or upgrading their outdated systems. With a vision to make cutting-edge technology available to all clients, Infini offers numerous structured pay-as-you-use models alongside its licensing model to cater to Lenders of all sizes and complexities. We regard each project as a partnership where we are interested in our joint success and this includes finding the payment structure that works for your business.

Digitize customer on-boarding to your comfort level

We understand that the level of digitization in processes needs buy-in from your internal teams and allow customization to varying levels to meet your comfort level. Veefin LS empowers fully digitized customer on-boarding right from customer upload of loan application forms to sanction or disbursement and collection monitoring while also allowing for partial digitization where in document collection and verification can be kept manual. With Veefin LS, digitize processes that work best with your internal policies and processes.

Advisory solutions from our Global Banking Experts

Our clients can also opt for Turn-key projects to digitize lending processes with us, where we not only provide our market leading solutions but also offer advisory support from Global Banking Specialists, who have experience of redesigning lending processes across multiple countries. These services are on-call and available throughout the length of our engagement. These programs can be as big or small in scope as our clients' desire - from as comprehensive as setting up the entire digital lending life-cycle from scratch to just a brainstorming workshop on specific product structures. Our collaborative knowledge-led approach towards developing the Right digital solutions for our clients, sets us apart in this industry.

Accelerated implementations

Our products have been designed by global Bankers for Lenders. Therefore, the Veefin-LS modules are ready to deploy out-of-the-box as they already incorporate all standard and many industry-first features. Technology implementations usually have a way of running way beyond committed schedules, unlike ours. With Veefin, you can be assured of going live with your systems in a matter of weeks rather than months.

Veefin CRM

To tackle the acute problem faced by Managers of CRM adoption by their sales teams, Infini designed a Social platform with CRM capabilities, making it the World's first CRM solution that solves the adoption problem from the core.

The CRM Module makes using the CRM a 'fun activity', every step from Lead Generation to Conversion so that your sales force actually uses the CRM and provides you with the opportunity to decipher their performance drivers and help them become better versions of themselves.

Key Distinctive Features

-  Mobile first architecture
-  Allows each salesperson to showcase their Individuality
-  AI-powered sales coach
-  Integrate leads from multiple microsites onto a single platform
-  360-Degree view of all Contacts within the system
-  Multiple pre-built metrics to customize events for reward and motivation
-  Ready accelerators of contextual gamification features available out-of-the-box
-  Accurate measurement of Campaign ROI to assess marketing efforts
-  Real-Time Dashboards on Lead Pipeline, Conversion Rates, Target Achievement and many more
-  Forecast Target achievement of teams and individuals
-  Ensure no lead is dropped with 360 degree real-time visibility on lead status

Veefin LOS

The LOS module of Veefin LS leverages the advisory experience of the Bankers at Infini to offer the world's Only truly **Automatic-capture of All possible deviations** on each file and their **Automatic-routing through the Approval hierarchy**. This unique feature combined with its **Low-code environment** setup means that you will never again have to compromise on your unique requirements and be rest assured that every file in the system would go through the same stringent checks and not have to rely on any human capture of deviations (*most delinquent files show that all deviations weren't captured during underwriting*).

Integrated with the CRM or on a standalone basis, upon lead conversion LOS automates the entire journey from document collection and data capturing, KYC upload, API integrations for external data points validation to credit scoring, appraisal and decisioning.

Key Distinctive Features

-  Mobile first architecture
-  Ability to go-live in days for the most complicated SME/Retail products
-  Auto-Capture deviations and Auto-Allocate them
-  Custom-build and automate underwriting processes for different banking products
-  Field Agents can upload documentation and record customer video interactions on-the-go
-  Developed in low-code environment enabling business users to modify systems without vendor support
-  Omni-Channel experience
-  Real-time application status check for customers
-  Credit Scoring and Fraud Scoring Engines
-  Ready to use Scorecard validation Engine

Veefin SCF

World's most comprehensive Supply Chain Finance Platform with knowledge-based partnership model.

Veefin SCF was developed with the intention to meet the needs of innovative bankers looking for flexible SCF structures that fit their unique requirements and gives them an edge with their clients. Veefin SCF caters to all known SCF structures out-of-box and is designed to allow rapid development and implementation of innovative flows.

-  Receivables Discounting
-  Loan Against Receivables
-  Payables Financing
-  Distributor Financing
-  Factoring
-  Purchase Order Finance

Veefin SCF can be customized to support custom flows as per business requirement.

Key Distinctive Features

-  **Super-Fast Implementation:** Ready to deploy out-of-box features and flexible interface for easy customization.
-  **Human-Centered Design:** Intuitively designed UI built for all the parties involved in the Supply Chain Finance process which includes Bank/Lender, Anchor, Suppliers and Dealer/Distributor. We also offer accessibility to our users across platforms, be it smartphones, tablets, laptops or desktops.
-  **Advisory Solutions from our Global SCF Specialists:** We also offer turn-key SCF programs where we not only provide our market leading SCF Platform but also offer advisory and support from our team of Global SCF Banking Specialists with experience in setting up SCF programs in several markets across multiple countries.
-  **Flexible Pricing Models:** Alongside our licensing model we also offer pay-as-you-use model with a vision to make cutting-edge technology available to all. This helps small businesses to upgrade their outdated systems while circumventing hefty upfront license fees.
-  **All In One:** We are the only platform in the world that comes with an integrated Sales CRM, LOS and Risk Management platform.
